Manufacture

SET & GO

Introducing SET & GO from Birmingham Joinery. A comprehensive fully certified doorset solution for the commercial market.

ORDER PROCESS

1. FUNDAMENTALS

- Select your configuration & handing
- Tell us your size
- Tell us your fire rating
- Tell us your acoustic requirement

2. SELECTION

- Tell us what finish you want on your door
- Tell us what finish you want on your frame
- Select your architrave size & profile

3. VISION PANEL

- Pick one of our glazed options if required

4. IRONMONGERY

- Select one of our ironmongery packs that suits your needs

5. UNDERCUT

- Tell us your floor finish so we can determine the gap to leave and whether to include a threshold seal

6. SIGN OFF

- Confirmation and payment

7. DELIVERY

- Doors are delivered to site with Installation guide

THE BENEFITS

- The doorset is fully certified. The door is plugged in accordance with our BM Trada Q Mark Fire door manufacturer scheme membership. The door will contain a Silver identifying Plug which indicates it has been supplied as a fully certified doorset and includes all tested hardware.
- It reduces time on site and labour on site. The door is hung on 3 hinges in an assembled frame with all associated ironmongery machined for. Minimal fitting is required on site.
- Factory quality workmanship. All morticing and machining for ironmongery is completed on our state-of-the-art machinery meaning excellent quality is consistently achieved.
- Sourcing a 'doorset' means the procurement process is slimmed down and all items are sourced from one supplier. A 'one-stop shop' for all elements of the set. The person who is procuring benefits from our experience and knowledge and can be satisfied all items being used are technically suited to the door being supplied.

DOORSETS - THE BLUEPRINT

HINGES

Machined for 3 hinges as standard, intumescent hinge pads where applicable

CERTIFICATION

Plugged with silver inner in line with our BM Trada Q Mark Scheme Membership, when supplied as a doorset

ARCHITRAVE

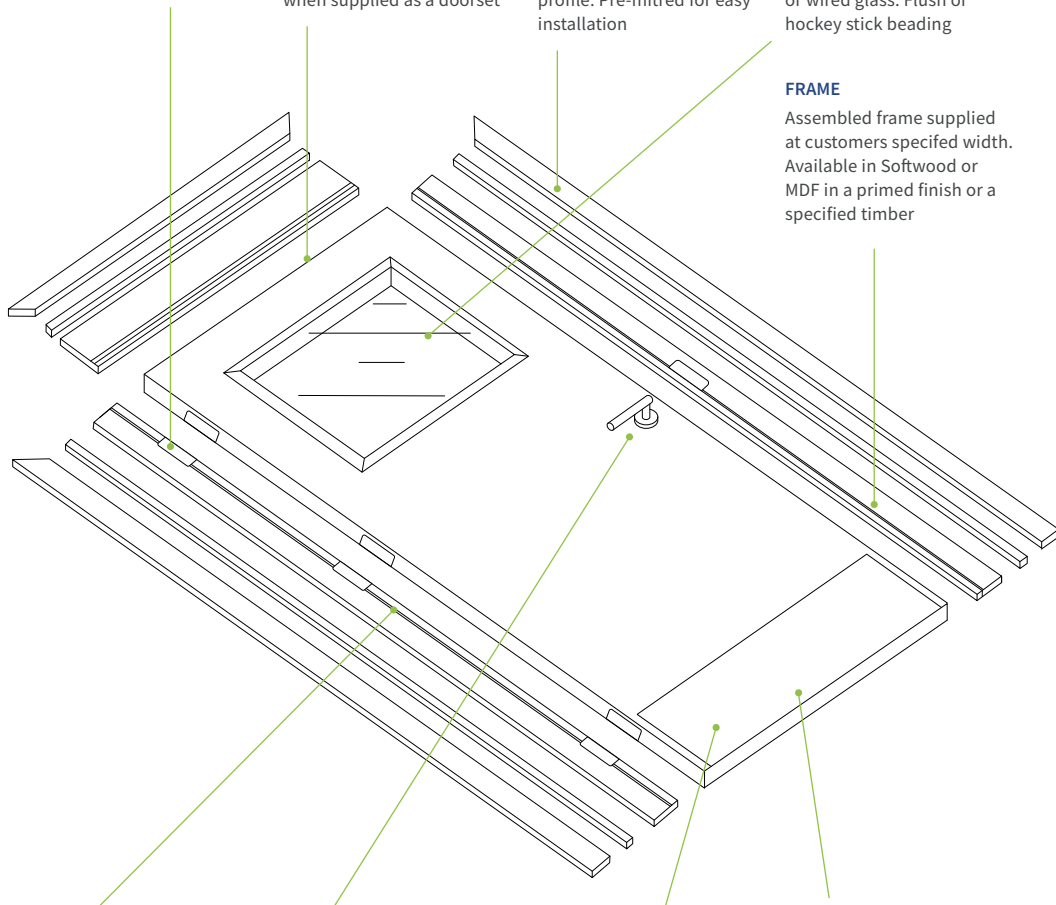

A choice of 69 x19 or 44 x19 in bullnosed, square, pencil round or chamfered profile. Pre-mitred for easy installation

VISION PANELS

Choose from one of our standard vision panel options in clear, obscure or wired glass. Flush or hockey stick beading

FRAME

Assembled frame supplied at customers specified width. Available in Softwood or MDF in a primed finish or a specified timber

SEALS

Correct FD30 or FD60 intumescent seals as applicable. Colour to match frame

LOCK

Door and frame machined for lock or latch if applicable

IRONMONGERY

Choose one of our standard ironmongery sets which include relevant signage. Alternatively request the doorset is hung on 3 hinges only

UNDERCUT

Frame is supplied longer by specified dimension at order stage allowing for on-site floor finish

DELIVERED

Pre hung in assembled frame. Ironmongery machined for and mitred architraves to save time on site
